- Responsible for independently designing ,coding , testing and database management by using C#,ASP.Net and SQL Server with JQuery, Ajax,HTML5,CSS3
- Designed database maintenance plans to set up core maintenance tasks to make sure that the database performs well, is regularly backed up in case of system failure and is checked for inconsistencies.
- Design and develop programming systems making specific determinations about system performance.
- As part of a team, created various reports according to the business requirements for the Warehouse management system.
- Responsible for the client side communication and client side visits according to requirement of project

Toll Management System

Platform & Tools: C#.Net, Crystal report, CSS, HTML, Ado.net, Sql server 2012

Project Description:

This handles the overall functionality of plazas. There are following modules such as maintain cash up, dash board, lane, wim, Isdu, Reporting, Validation, and POS etc.

Responsibility: I have worked on reporting module. In this I have used SAP crystal report for all Toll Plaza's. And need to match the data correctly on the crystal report page as per the daily, weekly, monthly basis for all modules such as Cash up, LSDU, WIM, reporting, validation and POS.

Counselling System

Platform & Tools: ASP.NET, Ajax, Java Script, CSS, HTML, JQuery, ADO.NET, SQL server 2008R2

Project Description:

- It provides the details of whole students and staff members. There are three modules i.e. Counsellor, Problem and counselee.
- Project Description: It provides the details of whole students and staff members. There are three modules i.e. Counselor, Problem and counselee.

Responsibility: database design, User Interface, coding, testing

SAI marble ERP

Platform & Tools: ASP.NET, C#.NET, Ajax, Java Script, CSS, HTML, ADO.NET, SQL Server 2008

Project Description: major modules of the application are: - Masters, reception (visitors, courier in- out) store (gate in, stock receive, purchase requisition, material issue, gate pass) Purchase (PO, Bill entry, purchase return) Quality (Quality check), production, sales (Inquiry, Quotation, sale invoice, work order), HR (Employee attendance, leave, salary generation, salary sheet) user right, Dashboard, report etc.

Responsibility: database design, User Interface, coding, testing

Eklavya ELearning Suite:

Platform & Tools: ASP.NET 2.0, C#.NET, CSS, JavaScript, HTML, ADO.NET, SQL Server 2005

Project Description: This project is for Indian Army Signals which provides the facility to online study, online examination, online chatting, and online video conferencing

- Major modules of the application are: - LMS (Learning Management System) LES (Learning Environment System) CTTB (Central Trade testing Board)
- LMS module is Admin module which provides the admin rights to add user/update information/add bulletin Board Information etc.
- LES module is use for army technical signals which provides online study, apply leave, online admission etc
- CTTB is used for to conduct the online examination to Jabalpur and Goa for Army Signals. Also display the result online. This is basically conducting the examination for army signals.

Responsibility: I also involved in requirement analysis, Database designing, coding, testing, and presentation of whole project before Army Signals.

Awards & Accomplishments:

- Got two times Kudos awards for “Delivery High Quality” on Dependent Verification Project at Mercer Consulting (India) Pvt Ltd.
- Presented seminar to onshore clients on “Warehouse Management System” at DB Schenker
- Got A+++ Grade for Effective communication presentation on topic of “Database Concepts”
- Got first position in Aptitude Test held by NITTR Kolkata at Mewar University
- Got A Grade for presentation on the topic of “SDLC Life Cycle” from Chancellor of Mewar University.
- Successfully trained Indian Army Signals on various technical subjects at Jabalpur and GOA.

Certifications:

July, 2017	Effective Communication and Skill	DB Schenker
Jul, 2017	Problem Management Training	DB Schenker
Jul, 2017	IT Security Management	DB Schenker
June, 2017	EXCEL Training	DB Schenker
Mar, 2016	SSIS/SSRS Training	DB Schenker
