## **CAREER OBJECTIVE**

To work in a globally competitive environment that gives me a scope to apply my knowledge and technical skills for all kinds of challenging profile and to work dynamically for the growth of organization and myself.

## **PROFESSIONAL SUMMARY**

- Working with Accenture Services as an Associate Development Analyst from Nov 2019 to till date.
- Worked with Hoonartek Tekwurks Consulting LLP as Associate Consultant from May 2019 to Nov 2019.
- Worked with IBM India Pvt Ltd as ASE from Jan 2017 to May 2019.
- Quick learning and hardworking team member with total 4 years of insightful experience in ETL processing and database programming.
- Proficient in understanding business processes and translating them into technical requirements.
- Involved in all phases of SDLC including requirement gathering, feasibility analysis, impact analysis, build, implementation, maintenance, and production support of existing applications.
- ETL Developer with a real-time exposure to tools namely Informatica PowerCenter and SnapLogic.
- Proficient in designing, building, and assisting with OBIEE dashboard/reports.
- A good knowledge of RPD design, Star Schema creation, building hierarchies, dimensions, measures, and subject areas.
- Worked on various databases like Oracle SQL Developer, AWS Redshift and SQL Server Management Studio.
- Having a good experience in job scheduling/monitoring using Control M and DAC tools.
- Sound analytic skills to solve complex problems peered with good communication skills, ability to work independently and with team.
- Ability to think through complex problems/scenarios and identify the key success factors.
- Ability to drive & deliver installation/upgrade/Patching.
- Ability to communicate effectively at all levels with people of varying backgrounds, roles, and points of view.
- Hands on experience in Linux/ Unix.
- Ability to complete challenging assignments through new learning or experimentation.

## **TECHNICAL SKILLS**

- Domain Knowledge- Retail and Banking and Finance
- ETL Tool- Informatica PowerCenter, Snaplogic
- Reporting Tool- OBIEE Dashboard
- Scheduling Tool- Control-M, DAC
- Relational Databases- Oracle SQL Developer, Redshift, SQL Server Management Studio
- Operating Systems: Windows, Linux
- Software Development Methodologies- Agile

## PROJECT EXPERIENCE SUMMARY

- **Project Title : Wendys AO-** ETL Migration (Informatica to Snaplogic)

**Duration :** Nov 2019 till Present

**Description :** The project is for a Retail client and is about migrating workflows from the Legacy BI i.e. Informatica (9.5.1) to pipelines in New BI i.e. Snaplogic

**Responsibilities:**

- System was initially developed using Informatica PowerCenter 9.5.1 and requirement was to migrate it to Snaplogic, hence developed several pipelines according to the business requirements to integrate data.
- ETL Jobs are scheduled through Control-M to transfer data from multiple sources to Redshift and SQL Server so that it could be consumed by Qlik and D365 CRM.
- Verifying the data in Target databases after new ETL process setup.
- Responsible for offsite trainings and knowledge transitions.

- **Project Title: Experion**

**Duration-** May 2019 till Oct 2019

**Description:-** The aim is to collect the information of Credit Card customers and maintain their data in relational database.

**Responsibilities:**

- 1) Collaborated and worked with business analysts to support their data analysis needs.
- 2) Derived simple deployments of Informatica technology and solutions.
- 3) Worked closely with the Informatica teams, customers, and channels to deliver the right solution and helps drive innovation of product capabilities.
- 4) Finding efficient solution to resolve ongoing issue on production using Oracle sql queries and Unix commands and delivered the requirements on time.
- 5) Evaluated Business Requirements to come up with Informatica Designs that adheres to Informatica standard.

- **Project Title: CITI Bank**

**Duration-** June 2018 till May 2019

**Description:-** Strategic Solar Provides a one-stop shop for Finance Product. Control to manage the preparation, verification and analysis of P&L across all Product and Entities within CITI.

**Responsibilities:**

- 1) As L2 support team member to analyze code or concept given by development team.
- 2) Monitoring jobs running on server and following up with upstream for files in case of delay.

- 3) Taking necessary action on jobs on Autosys front end.
- 4) Sending notification to all global users in case of any issue in the system.

- **Project Title: SAPURA ENERGY BERHAD**

**Duration-** Jan 2017 till May 2018

**Description:-** The project was intended to view the changes for the customer to present the most current or correct information from the database as the information displayed for the party in the front-end application.

**Responsibilities:-**

- 1) Identifying transactional database, validating data design and ETL mappings, logic, creating mappings for the report, creating repository (rpd), reports and dashboard, testing those reports, unit testing and documentation.
- 2) Understanding business requirements, change requests and based on the requirements integrating the changes in Production Environment.
- 3) Creating RPD, dashboards, reports, performed testing and deployment related activities.
- 4) Based on the client requirements developed the components.
- 5) Extensively used BI Administration Tool for customizing and modifying the Physical, Business and Presentation layers of metadata repository.
- 6) Responsible in providing support by tuning Informatica mapping and DAC Loads.
- 7) Responsible for raising the incidents to promote the objects.
- 8) Solving defects and delivery on time.
- 9) Involved in training sessions of Oracle.
- 10) Performed Unit testing and end to end testing.
- 11) Used Filters and provided Customized prompts appropriately for Reports performance.
- 12) Creating iBots and Delivers to send Alert messages to subscribed users.

### ACADEMICS DETAILS

EXAM/DEGREE	YEAR	NAME OF INSTITUTE	UNIVERSITY/BOARD	%
Bachelor of Technology in Computer Science Engineering	2012-2016	GITA, Bhubaneswar	BPUT	65.0
12th	2008-2010	B.S.N College, Gaya	STATE BOARD	65.2
10th	2007-2008	S.S High School, Sulebatta	STATE BOARD	69.7

## PERSONAL PROFILE
