+ Development of Junit test cases
+ Worked in GUI domain

Programming Languages/ Operating Systems / Platforms / RDBMS

+ Java(Spring,Spring boot,Apache Camel)
+ Javascript(and other front end languages)
+ AngularJS
+ Junit
+ Unix, Linux
+ SQL, ORACLE

Tools

+ SVN
+ Git
+ Bugzilla
+ Sonar, Logtash, Kafka

EMPLOYMENT HISTORY

**November 2015
To
December 2017**

LILYSY SOLUTION PVT LTD – *Software Engineer*
+ Complete software development life cycle (Java)

**December 2017
To
May 2019**

SAMPARK SOFTWARE PVT LTD - *Software Engineer*
+ Complete software development life cycle (Java)

Since July 2019

ARICENT – *Senior Software Engineer*
+ Complete software development life cycle (Java)

EDUCATION

2012

BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE AND ENGINEERING
Maharshi Dayanand University

PROJECT EXPERIENCE

LILYSYS EXPERIENCE

Project Title
Description

MILLENNIUM

The software allows you to create question bank for various programs, classes, chapters and store your data in an organized way. The test generator then allows you to create tests with the criteria that you want. You can create chapter, unit, objective, final and various other types of exams. The tests can be exported to word file with your institute's header and footer. The output in word is optimized for printing to save on paper. This is a must have software for anyone who is spending time in creating tests for their students.

In this project there are three modules SuperAdmin, Admin and SME Module

Industry
Janta Book Depot

Project Timeline
December 2015 to October 2016

Team size
1

Location
Dwarka, India

Role
Software Engineer

Responsibilities
+ Design, coding and testing of required fixes for problems raised by customers
+ Unit testing, Integration testing
+ Coding regarding the respective framework changes of the use cases.

Key skills/experience gained
Java Spring,MySQL,hibernate,AngularJs,HTML,CSS,JavaScript,Bootstarp
